**DETAILED ACTION**

***Response to Amendment***

1. The amendment filed on 12/22/2004 has been entered, made of record, and are sufficient to overcome the prior reference(s). Claims have been renumbered 1-35.

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Sheridan (Reg. 53,585) on March 18, 2005.

The application has been amended as follows: In originally numbered claim 25: delete "...according to claim 24..." and insert "...according to claim 23..."

***Allowable Subject Matter***

2. Claims 1-35 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 1-35 are allowable over the prior art made of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches an image reading apparatus comprising: an image reading unit adapted to read an original image; a transmission unit adapted to sequentially transmit

Art Unit: 2622

image data of the original image read by said image reading unit to an external device; a driver adapted to displace a relative position between the image and said image reading unit; a monitoring unit adapted to monitor whether the external device can receive data; and a controller to suspend reading operation of said image reading unit when said monitoring unit detects that the external device cannot receive data during execution of reading operation of said image reading unit and control said driver to displace the relative position between the image and said image reading unit to a predetermined position before the suspended position of the image reading operation, and then restart the reading operation of the same image from the predetermined position when said monitoring unit detects that the external device can receive data, respectively, as set forth in claims 1, 17,20,31,34-35.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
